NOTE OF THANKS

We would like, on behalf of the paper staff, to thank the teachers, Rose Anne Bratton, the typist, Miss Kolbe and Mr. Danis, our advisors, and anyone who in any way helped us with the papers we put out this year.

At this time the graduating class of this year would like to thank all the teachers who assisted us in our elementary school years.

COMMENCEMENT

The Pike School Eighth Grade Graduation Exercises will be held May 19th at 8:00-P. M. in the school auditorium.

The program will consist of the Invocation and Benediction by Rev. J. P. Miller, Dr. Ralph Beck of Bowling Green State University speaking on the topic, "Where Do We Stand?", and music by the Glee Club and Mixed Chorus accompanied by Miss Carolyn Meier.

We hope all of the parents, relatives, and friends will be present.

EIGHTH GRADE WILL AND TESTAMENT

I, Ralph Beaverson, do hereby will and bequeath my ability to be called "Handsome" by Carol Sue Smith, to Paul Ulrich.

I, Nathan Bliss, do hereby will and bequeath my desk to John Schaechterle in hopes that he comes to school to use it more than I did.

I, Carol Cook, do hereby will and bequeath my cheerleading suit to Lillian Miller and my comb and mirror to Sharon Leu.

I, Carol Kistner, do hereby will and bequeath my ability as pitcher on the softball team to either Sharon Murray or Maresta Elling.

I, Carl Kolbe, do hereby will and bequeath my desk and all my books to Sharon Hildreth and my softball suit to Duane Peabody.

I, Dannie Miller, do hereby will and bequeath my desk, which has had good care, to Evelyn Horner, and my softball suit to Larry Shelt.

I, Pat Nord, do hereby will and bequeath my job as co-editor of the school paper to Ann Lane, so she can write the editorials, and my position as catcher on the softball team to either Pat Armstrong or Caroline Smith.

I, Gerald O'Brien, do hereby will and bequeath all of my books and my desk to Kenny O'Brien. Good luck, Kenny!

I, Twila Olmstead, do hereby will and bequeath my ability to play any position on the girl's softball team to Sharon O'Brien and Kay Watkins.

I, Chuck Riegsecker, do hereby will and bequeath my books to the wastepaper basket and hope it gets more use of them than I did.

I, Jim Riegsecker do hereby will and bequeath my books, pencils, (if they can be found) and my wonderful seat in the second row to Bobby Russell.

I, Larrie Skates, do hereby will and bequeath my tallness to Tom Coon and my softball suit to Merlin Kinsman.

I, Beatrice Smith, do hereby will and bequeath my desk, and I'll throw my books in with the deal, to Carolyn Thompson.

I, Gloria Thompson, do hereby will and bequeath my ability to think and come up with the right answer, to Carol Sue Smith. Make use of it Carol Sue.

I, Rex Ulrich, do hereby will and bequeath my basketball suit to Kenny Kistner and my books, pencils, and desk to Janice Tuckerman.

I, Roger Viers, do hereby will and bequeath my desk to Sue Linn and my softball suit to John La Salle.

* * * *

EIGHTH GRADE HISTORY

FIRST GRADE:

We started out with 14 pupils. We were all pretty scared of school and our teacher, Miss Lois Hartell. She was probably scared of us too, because the girls wore long, brown stockings and the boys were quite a sight also. We went to the zoo on our trip this year.

SECOND GRADE:

We lost 2 pupils and didn't gain any so that left us with 12. The girls were promoted to knee socks and we all began venturing to the store on the corner. We went to the zoo on our trip this year also. Our teacher was Miss Ruth Miller.

THIRD GRADE:

We kept the same amount of pupils this year and our teacher was Mrs. Stella Geer. We had our first operetta this year. We went to the zoo again. We played cowboys and Indians at school and the girls played nurses when one of the boys got hurt. What fun!

FOURTH GRADE:

This year again, we kept the same number of pupils. No gains, no losses. Our teacher was Mrs. Geer. We made grass huts out on the playground to play in and the girls brought their dolls to school and played house. We also did some interesting art work. This year we didn't have any trip.

FIFTH GRADE:

This year we gained 3 students and didn't lose any. Our teacher was Mr. John Funk. We had a "doll wedding" in his honor because he was soon to be married. We carved some pictures on soap and Mr. Funk read some books to us. Some of the girls were cheerleaders. On our trip we went to Wauseon and saw the jail, the courthouse and the creamery. Then we came back and played a ball game against York. We won.

SIXTH GRADE:

We lost 1 student and gained 3. Our teacher was still Mr. Funk. We started playing softball with the team this year and Mr. Funk read us the "Black Stallion" books. On our trip we went to Toledo to the Art Museum, Union Station, and to the WSPD television station. Something went wrong that morning so we weren't televised.

SEVENTH GRADE:

We lost 3 pupils this year and gained only 1. Our teacher was Mrs. J. P. Miller. We did a lot of craft work including making lanyards and bracelets. We had a lot of skating parties which we all enjoyed. We went to Put-In-Bay on Lake Erie for our trip this year. One of the boys went swimming, but not by his own choice. There were four cheerleaders this year and most of us played on the softball team.

EIGHTH GRADE:

This year we have the same number we were promoted with, 16. There are 10 boys and 6 girls. Our teachers are Miss Dorothy Kolbe and Mr. Robert Danis. All of the eighth grade girls and most of the boys are on the softball teams. There were two cheerleaders from our grade. Our trip this year took us to Detroit where we all had a wonderful time.

* * * *

EIGHTH GRADE TRIP

The eighth grade trip will be on Friday, May 14. We plan to leave at 8:00 A. M. and be back late in the evening.

We are going to Ford Museum, Greenfield Village, the Zoo, and to see "Cinerama". We will stop for our meals during the day.

We are going by car and the drivers will be Mr. Danis, Mr. Peebles and Mr. Thompson. Mrs. Ulrich, also

* * * *

MEMO'S OF TOMORROW

When asked our ambition, most 8th graders answered a farmer or housewife. For fun we've decided to write some make believe ambitions. The question is, "What will you be in '73?"

To put you in the mood, just put your mind at ease, relax, take off your shoes if you want to. Now, if you're settled, pretend you are gazing into a crystal ball in the year 1973.

First you see a color TV with a 51 inch screen. The show is starring Ralph Beaverson, the greatest singer since Eddie Fisher. He has his own three hour show and has sold 50,000,000 copies of the song he's singing now, "Cross Back Over The Bridge". Ralph has lots of fans, especially girls. He receives about 500,000 letters a week. Wait! There's a big commotion. Someone is coming through the audience and up on the stage. I believe--oh my goodness, it's someone with long hair! Why it's Nathan Bliss, the greatest explorer. You probably have read about his

great explorations all over the world. Recently he has explored Pharaoh's tomb in Egypt. It seems he was trapped in the tomb, but he was finally rescued. That's why his hair is so long now. He expects to let it grow because when he goes on his next trip, which is to Greenland, he won't have to wear so many hats. Nathan is leaving now and I see it's 7:52 P. M. which is about time for Ralph's show to close.

Say, there's a big noise now. A crowd is flocking to the space port. Oh, it's time for the famous space ship of Carol Cook's to come in for a landing. Captain Cook has flown some million ships and is planning her second trip to the moon very soon--that is, if this trip has been satisfactory. She is out of her ship now and there goes Carol Kistner to congratulate her. Carol Kistner, who is now Mrs. Pierre Gazer, is a very famous woman politician. She has held 13 offices in her lifetime. Her most famous are Mayor of New York City and Secretary of State. Mrs. Gazer may run for President of the United States this year. Her husband is French and Carol met him while she was an ambassador there. She has been ambassador to seven different countries.

Now let's skip across the world to Africa where in a little African village called Mauija, we find Carl Kolbe resting in his hammock. Professor Kolbe is a great scientist who studies the lives and habits of ants. His studies have continued for 25 years. He owns 30,000 species. They come from all over the world. A science college in honor of this marvelous man is being erected in Egypt.

Now back to the U. S. and to Carnegie Hall in New York City where a piano concert is being given by Liberace the 2nd, or better known to you as Dannie Miller. Dannie was picked up by Liberace the 1st one day while hitch-hiking. After a few lessons on the piano his playing became more famous than any pianist in

history. He now makes \$10,000,000 a year on the average. His home is an English Castle brought from England and his 20 servants own Cadillacs which Dannie bought. Dannie plans to have dinner with Miss Gloria DeHeavenly or Gloria Thompson as she is known to us. Gloria is a famous model for Marcus Molane from Paris. She won "Miss America" in 1971 and is considering motion pictures now.

The Opera House is also lit up I see. The voice you hear is that of Beatrice Louise Smith. Her voice is one of the rarest in history. People can hear her marvelous voice five blocks away. She has studied in almost all important music cities in the world. Her latest opera is, "Close The Door Grandma".

A few blocks away from the Opera House is a big factory. It's called the "Don't Let Your Teeth Fall Out" Co. It is owned by Miss Patricia Nord. She also owns two union pad factories. Believe it or not, it's a good industry. Almost 85% of the population needs union pads. In her spare time, Pat does sword swallowing. They say her throat is lined with "Patricia's Union Pads".

We've been in New York so long, let's move on down to another large city, Winameg. It is now 2nd largest city in the world. The mayor, believe it or not, is Gerald O'Brien. Gerald started a restaurant in Winameg in 1962 and he became popular for his "Heavenly Horsemeat Hash". People came from everywhere to taste this delicacy. Gerald was made Mayor of Winameg in 1970 and now in 1973, he's a white collar man.

Charles Riegsecker, believe it or not, has grown to a height of 6 ft. 8 in. He played professional basketball and football before entering West Point. He received many trophies and among the best is "Best Athlete of 1960". He had high honors at West Point which gave him later, the Chief Admiral of the U. S. Navy. While traveling the world, he married a Japanese girl.

We understand Twila Olmstead has recently become the bride of the wealthiest man in all the world. His name is Sauil Magidai Pasuisha, ruler of Saudi Arabia. When they were married he gave her 20 sapphire rings, a necklace made of 53 rubies, and diamonds enough to fill a bushel basket. He also gave her furs amounting to \$3,000,000. It looks like Twila had better hold on to this man.

James Riegsecker is a professor with 25 years of schooling behind him. He is the head professor of "Hillsdale School for Girls" in San Francisco. He majors in arithmetic. He invented a machine that can solve 53 problems at once and the results in 30 seconds. His wits are matched with Einstein.

Another man with much knowledge is Larrie Skates, or Dr. Lawrence Skates, his professional name. He specializes in brain surgery and is known throughout the world for his wonderful surgery. He recently discovered a machine to take the place of the human brain. He can help a person with 1/100 of a brain, or in some cases, no brain. Such an operation takes 19 hours.

While you are thinking of sick people, you might be interested in knowing that Rex Ulrich is a great designer of greeting cards. He owns many factories which make cards. He had an accident just last month. He was climbing mountains in Switzerland and had a bad fall when an ice fly tickled his nose and he struggled so hard to chase it off that the rope to which he was clinging broke. What a person won't do for ideas for greeting cards.

Roger Viers is in Cuba at the present time. Roger is a sponge diver. He dives great depths just to get the sponges. He was discovered for this job by T. D. D. Pufferman. T. D. D. Pufferman saw Roger while he was working a night watchman job in a scotch tape factory. Roger saw a burglar and started to pursue him, when he slipped and fell 20 stories. Luckily, his foot was attached to a strand of scotch tape and that

was what saved him. The fall scared him so much, his hair has stood up ever since.

This concludes our look into the future.

THE PIKE EAGLES

The Pike Eagles have won every softball game during the 1953-54 season. For the first year, we have won a softball trophy for the school. This spring we got new softball suits.

In the basketball season we lost by two points to Chesterfield and beat York by fifteen points. We lost the rest of our games. We got third place in the Tournament.

We haven't had our track meet yet, but we are practicing for it. It will be held at Pike, May 17. We are hoping to win.

* * * *

GIRLS' SPORTS ROUND-UP

We have been cooperative this year in sports. Of all the different sports, I believe we liked softball best. When we started to play softball last fall we did good. We played six games and only lost one. During the winter we chose teams for basketball and volleyball. We liked playing in the gym rather than going outdoors. We started playing softball this spring again.

We hope next year's team will have the same good luck we've had this year.

* * * *

GOSSIP

We thought we might as well inform you as to how the couples turned out for the end of the year.

Rex Ulrich and Janice Tuckerman

Ralph Beaverson and Carol Cook

Roger Viers and Sue Linn

Chuck Riegsecker and Jackie Horner

Larrie Skates and Sharon Murray

Pat Armstrong and Carl Olmstead

Pat Nord and Larry O'Brien

There is some question about this but we believe Carol Sue Smith and Kenny O'Brien might make a final couple.
