ANP PROJECT - PERSONNEL DIRECTORY

Attached is a Personnel Directory of the ANP Project as of

December 1, 1952.

In general, the list has been prepared in a manner designed to show lines of responsibility. Names of individuals reporting to the same persons are indented the same amount.

Organization Planning will keep this information current and prepare revisions when necessary on the basis of information from the weekly personnel report, notification of changes by Supervisors, and organization announcement, when issued.

It is requested that Supervisors notify Organization Planning of any errors, changes, or omissions which apply to their organization.
